

A night-hunting bird of prey.

Default posture: close guardant. Proper coloration: brown, unless owl is blazoned as a type with distinctive coloration (e.g. a “snowy owl proper” would be argent).

The October 2018 LoAR held that this depiction is unregistrable because the posture is unidentifiable; the legs are positioned as if affronty, but the wings and tail are positioned as if close. Also, the leg should not overlap the tail feathers.
