

 Book Of 

Traceable

Heraldic Art

Welcome

Welcome to the Book of Traceable Heraldic Art, a compilation of armorial illustrations intended to facilitate the design of devices and badges within the Society for Creative Anachronism.

This collection was initially meant to facilitate submissions at Pennsic Heralds' Point, but it has since proven useful in other contexts.

Work In Progress

This is a snapshot of an ongoing project, incomplete and subject to revision. It may — nay, most certainly does — contain errors.

It is not complete, but the common field divisions and ordinaries are included, along with a fair number of complex line variations, and a growing collection of mobile charges. There are also a number of other supporting documents and worksheets that may be useful to heralds which are available as part of the broader collection.

Important: Note that the inclusion of a charge or illustration in this collection does not guarantee that it is registrable. Always check with knowledgeable heralds before submitting your armorial design.

If you spot problems or have suggestions for improvements, I would love to hear about them!

Multiple Sources & Alternative Depictions

This collection has been assembled from multiple sources, with illustrations by different artists, as shown on the credits pages.

There are multiple variations included for some elements, reflecting a range of proportions or styles or artistic options, indicated by page titles containing (1), (2), etc. In some cases the choice of variation may be constrained by other elements of the design; in others any option will work, and the choice of which to use is up to the submitter, herald, or scribe.

Scaled For Submission Forms

The fields and ordinaries are scaled to match the SCA's standard armory submission forms.

The complex lines have been scaled to multiple sizes that should allow their use with most field divisions or ordinaries. Some combinations of divisions and ordinaries using those lines are included, but in other cases you may need to construct them yourself.

The mobile charges have been scaled to multiple sizes that should be traceable in most possible positions on the field. The largest size should fit comfortably on the SCA's standard armory submission forms as a sole primary device, while the smaller sizes can be used in combination with other charges.

Printing & Tracing

If you print single-sided copies of these pages you should be able to lay a submission form over them to trace the desired elements.

A light table or light box will make the job of tracing easier; a simple one can be purchased online for \$15-25, or you may be able to improvise one with a desk lamp under a glass table, or by placing a string of holiday lights inside a clear plastic storage tote, or by taping the pages to a sunny window.

Web Downloads

The latest version of this document is online at <http://heraldicart.org/>.

In addition to printable PDFs, the web site also includes files for each charge in PNG and SVG formats, as well as the original source files in OmniGraffle format, any of which may be used to assemble digital images of armory for submission or display.

These images use a gray background to indicate charge areas. Convert these to black-and-white or fill with the appropriate color.

Editor's Acknowledgements

Assembling and refining this collection has been an ever-growing project over the last three years.

Thank you to each of the artists who contributed illustrations to this effort, and to those who posted their creations online under licenses that allowed them to be collected here. Their names are catalogued in the Sources section, and this collection would not exist without them.

I am very grateful to the Pennsic Traceable Art project, led by Ailis Linne, which provided the inspiration for this collection, and was initially the primary source of material. A special thanks to Þóry Veðardóttir for recruiting me to work on updating that resource, and for providing feedback during the first year.

Many thanks to the heralds of the SCA for the years of research and the reference material which informed this work. Notable among these is Bruce Draconarius of Mistholme, creator of the Pictorial Dictionary of Heraldry, aka the "PicDic," a truly invaluable resource.

Particular thanks for the helpful feedback received from Beatrice Domenici della Campana, Kryss Kostarev, Muirenn ingen Dúnadaig, Tanczos Istvan, Thóra Róarsdóttir, Yehuda ben Moshe, and the members of the SCA Heraldry Unofficial Chat group on Facebook.

My sincere appreciation to folks who have contacted me with corrections, including Basil Dragonstrike, Konrad Mailander, Michael Gerard Curtememoire, Amy Hanson, Alexandre Saint Pierre, and Cormac Mór.

Distribution

This collection is distributed under the terms of the Creative Commons CC-By-SA license.

You may distribute this book and website as a whole, or portions of it, or incorporate its contents into other material, provided that you acknowledge the sources of the work and allow everyone to share the resulting material under the same terms.

If you have questions about a possible use that are not answered on this page, please contact me to discuss it.

Amateur Historical Recreation Use in the SCA

All works in this collection have been shared under terms that allow their free use within the Society for Creative Anachronism (SCA).

This means that you may copy, trace, modify, combine, and otherwise use any of these elements to submit armory registrations, for heraldic display, or for any other non-commercial purposes related to the SCA, for free, without requesting individual permission to do so.

No attribution is required for heraldic or artistic use of these elements within the SCA, so you may use these illustrations without a need to credit the original artists (although that is always welcome).

Artists' Copyrights & Terms Of Use

This collection includes elements created by many different people, some specifically for this edition and some as part of other projects.

Each page containing third-party material identifies the source and original illustrator, if known, and more information about these sources is provided on other pages in this collection.

Items not explicitly credited to another source were created for this collection by the editor.

For material created in recent decades, the original creators each retain their copyright in the elements contained herein, with a few exceptions noted of items which have been explicitly placed in the public domain.

Some older items are drawn from historical works which were never copyrighted, or whose term of copyright has since expired. Those items are in the public domain and may be adapted and used freely.

In cases where significant effort has been invested in adapting public-domain material for use in this collection, the people who performed those adaptations retain a copyright interest in the modified work.

For commercial or non-SCA use of these images, you must carefully review the terms of the source material or contact the creators of the elements you wish to use for permission, as some sources require attribution for use outside of the SCA, require relicensing of derivative works, or limit their work's use in commercial contexts.

Add Your Art to This Book

If you are an armory illustrator, or a "herald painter" as folks would have said in period, and you're willing to share your images with the SCA community, I would welcome your contribution to this collection. You can send me images you've already created, or identify something I'm missing and draw something new to share.

Illustrations should be drawn with a solid outline, and not filled or excessively shaded, so that they may be easily traced and colored in whichever tinctures a client selects — just as you would draw them for the black-and-white outline version of an SCA heraldic submission.

I'm including multiple styles for common charges, representing different regional traditions, varying historical periods, and assorted illustration styles, so if there's already a lion rampant in the collection that doesn't mean you can't send me another.

Formats and Addresses

You can send me your art in whichever way is most convenient to you, and I'll do our best to convert it as necessary.

Illustrations may be uploaded to my web site at <http://blog.heraldicart.org/upload-art/>.

If you have vector files, you can send those in any standard format (PDF, EPS, SVG), or I can accept bitmapped drawings or scanned images (PNG, TIFF, GIF, JPEG) as long as the resolution is sufficient to preserve the details.

Alternately, you can mail paper copies to me for scanning, care of Traceable Heraldic Art, 219 W 106th St #1E, New York, NY 10025.

However you send your art, make sure you include your email address so I can follow up with you, and either your society name or your modern name (or both) so I can give you proper credit.

Licensing & Copyright

Any images you contribute remain yours, but by submitting them you grant me an license to adapt and distribute them for heraldic and artistic use within the Society for Creative Anachronism.

In order to ensure that people who use this collection to create their device or badge can do so with a minimum of complication, I'm only including images which members of the SCA community can combine with other elements to create their own armory, without requesting special permission, paying a fee, or providing attribution every time they paint their device on their shield or display a banner.

Our standard license for contributions is the Creative Commons Attribution-ShareAlike 4.0 International (CC BY-SA 4.0) license, with an additional grant that no attribution is required for heraldic or artistic use by members of the SCA community. These terms will be used for any art you contribute without specifying another license.

If you want to ensure that your art is not used by a business you can opt for the Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International (CC BY-NC-SA 4.0) license, with the same grant of non-attribution within the SCA community. This indicates that a business may not use your art as part of their logo or signage, and may not sell products that incorporate your design, unless they first contact you to negotiate special permission.

Alternately, if you're willing to make your art freely available to anyone with no restrictions at all, you may place it in the public domain. I will still credit you as the creator of the image, but then anyone will be able to copy, modify, and redistribute your illustration in any way they'd like.

If you are not comfortable with these license terms, or you have questions about what they mean, please contact me before submitting your images to make sure I understand your requirements.

Compiled and edited by Ailis Linne. © 2004–2007 Erin E Childs.

Permission was granted by the editor to include, update, redraw and distribute the PTA images as part of this project.

Nearly all of the charges from the third edition are included, along with some additional items from the project's unreleased archives.

A concordance showing each PTA item and the corresponding image in this collection is available at <http://heraldicart.org/pta/>.

Artists include Roana d'Evreux, Myfanwy ferch Rhiannon, Bressal MacCulloch, Palotzi Marti, Gisela vom Kreuzbach, Elsbeth Anne Roth, Kolosvari Arpadne Julia, Thomas Ouswood, Margaret Makafee, and Tristran Deans, among others.

In some cases, the record of artists' credits is unclear, and we have included our best guess as to the creator, annotated as "attributed."

Images scanned by Roana d'Evreux and Thomas Ouswood.

Pennsic Traceable Art Archives

Following the publication of the third edition of the Pennsic Traceable Art, a number of additional illustrations were collected in anticipation of the fourth edition, but were never published.

A decade later, they are being distributed here for the first time, under the same terms as for the third edition.

Artist include Gunnvôr silfrahárr, Ian of Tadcaster, and Violante de Rojas.
